

PODS

Next Generation

A New and Changed Model

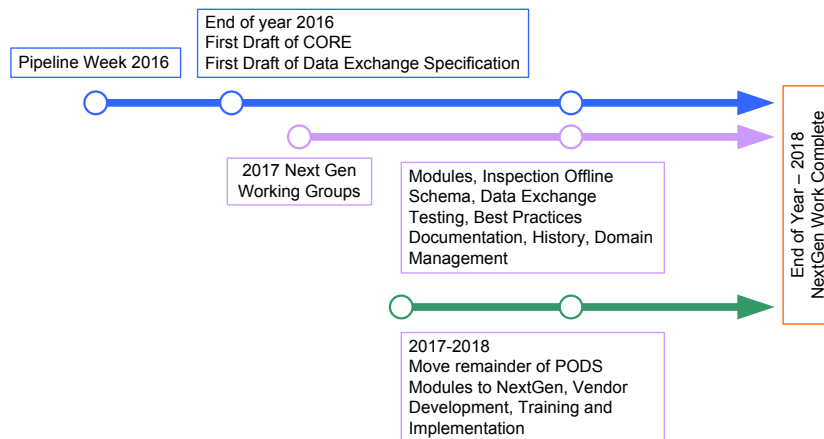

New to the Next Generation of PODS Standards

Transformed (Changed) from Prior Versions

Overview of Next Gen

- Next Gen is aligned with the PODS Strategic Plan
- Next Gen represents a significant change from the current data model and how we think of data
 - Implementation pattern support
 - Geometry and feature support
 - Data Exchange Specification
 - Based on industry proven standards (OGC, ISO)
- Alignment with Esri and APR
- Formalized and flexible data model methodology
- Will be supported with robust and complete documentation

Looking forward – What is Next?

Schedule

- Finish the Core (Q4 2016)
- Implement PODS Lite Version of Next Gen (11/01 Q4 2016)
- Implement APR Version of Next Gen with PODS Lite (Q4 2016)
- Define the Working Groups (Q4 2016)
- Working Groups (Q1-Q3 2017)
- EA and ShapeChange Training (Q1 2017)
- EA Implementation (Q1 2017)
